# CARRIE JANISKI, DO

---

**Regional Medical Director at Golden Valley Health Centers and President  
of the Osteopathic Physicians & Surgeons of California (OPSC)**

Carrie Janiski, DO, is a Regional Medical Director at Golden Valley Health Centers in the Central Valley of California. She also serves as the Regional Director of Medical Education and the Director of Sports Medicine. She is board-certified in Sports Medicine, Neuromusculoskeletal Medicine/Osteopathic Manipulative Medicine and Family Medicine.

She received her Bachelor of Science in Athletic Training from Western Michigan University, Master of Science in Kinesiology from Michigan State University, and medical degree at the Michigan State University College of Osteopathic Medicine.

She has served as a team physician for California State University, Stanislaus and John H Pitman High School in Turlock. She leads weekly yoga classes as a certified yoga instructor (ERYT-200) and is co-facilitator for a 200-hour yoga teacher & leadership training offered every 12-18 months.

She serves on the Board of Directors for the EMC Health Foundation. She is a clinical instructor with Touro University COM and is Core Faculty for the Family Medicine Residents in Modesto at the Valley Consortium for Medical Education.

She is a member of the OPSC Education and OMM committees. She served 4 years as Chair of the OPSC Education committee in addition to serving as Vice Chair. She was awarded the 2019 Rookie of the Year Award from OPSC and the 2020 James M. Lally, DO, National Emerging Leader Award from the American Osteopathic Foundation.

# ABOUT OPSC

---

The Osteopathic Physicians and Surgeons of California (OPSC) is a community of the best and brightest in the osteopathic profession.

OPSC is the sole organization focused on advancing and supporting osteopathic physicians in California. Founded in 1961, the association serves over 17,000 current and future Doctors of Osteopathic Medicine throughout California.

OPSC gives DOs a voice in the California state legislature and protecting the practice of medicine in California. Our success in advocacy is due to the combined efforts of our physician members and OPSC, developing and maintaining meaningful relationships with policy-makers throughout the state.

# THANK YOU

For generously sponsoring the student white coats

The Arnold P. Gold Foundation fosters humanism in medicine through support of programs including this ceremony. Humanism in medicine describes relationships between physicians and their patients that are respectful and compassionate. It is reflected in attitudes and behaviors that are sensitive to the values, autonomy, cultural and ethnic backgrounds of others. The humanistic doctor demonstrates the following attributes: integrity, excellence, compassion, altruism, respect, empathy and service. The Humanism in Medicine pins are donated by the Arnold P. Gold Foundation to symbolize student excellence in patient care.

California Health Sciences University College of Osteopathic Medicine (CHSU-COM) thanks the Arnold P. Gold Foundation for providing each student with the Keeping Healthcare Human pin as a gift, in recognition of the first White Coat Ceremony in 1993, initiated by the Arnold P. Gold Foundation.

# *Class of 2030*

## **MISSION STATEMENT**

---

The future physicians of the CHSU-COM Class of 2030 are committed to educating, serving, and advocating for the residents of the Central Valley. Our diverse backgrounds and experiences will bring a collaborative, patient-focused approach to reduce regional healthcare disparities together.

Class Motto: To provide Compassionate  
and Holistic Service, United

# OSTEOPATHIC OATH

---

I do hereby affirm my loyalty to the profession I am about to enter. I will be mindful always of my great responsibility to preserve the health and the life of my patients, to retain their confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and with my skill and ability, keeping in mind always nature's laws and the body's inherent capacity for recovery.

I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no drugs for deadly purposes to any person, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation and never by word or by act cast imputations upon them or their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will be ever alert to further the application of basic biologic truths to the healing arts and to develop the principles of osteopathy which were first enunciated by Andrew Taylor Still.
