Student Immunizations

Student Health Immunization Requirements

Regulatory and legislative authorities require that students demonstrate immunization, immunity and/or protection from multiple contagious diseases before being allowed to participate in clinical experiences. CHSU requires that students meet all immunization requirements prior to matriculation and must maintain compliance with these requirements through graduation. Descriptions of CHSU immunization requirements specifically addressing Varicella, Measles, Mumps, Rubella, Hepatitis B, Tuberculosis, Influenza, Tetanus/Diphtheria/Pertussis (TDAP), and COVID-19 are presented below.

Required laboratory evaluations and immunizations are subject to review and modification based on recommendations from the Centers for Disease Control (CDC) and, the Advisory Committee on Immunization Practices (ACIP), the United States Prevention Task Force (USPTF) and other public health agencies. Students will be notified of any changes and will be required to comply with any mandated changes upon receipt of notice from CHSU.

Important Notes Regarding Vaccination Requirements:

1. Clinical experiences are part of the basic curriculum to obtain a degree of Osteopathic Medicine. Exemptions may be obtained for medical or religious reasons.
2. Students will **not** be allowed to participate in any patient care activities, including but not limited to early clinical experience, health outreach events, international mission trips and clinical rotations, until **all** immunization requirements have been met.
3. Inability to participate in the clinical experiences due to non-compliance with CSHI immunization policies may result in unexcused absences leading to failure of a course, academic probation, promotion board hearing, delay in graduation or even dismissal from the program.

CHSU immunization requirements are described in detail below. All incoming and current students must enter all immunization requirements on the CHSU immunization form. **This form must be completed in its entirety; students are required to submit supporting documentation such as immunization records and titers by uploading to My Record Tracker for verification.**

Hepatitis B

A Quantitative Titer is required.

If negative titer (<10 IU/ml) provided students must:

- Repeat the vaccination series: 2-shot Heplisav-B series OR the 3-shot series (Engerix-B, Recombivax, Twinrix).
- Repeat quantitative titer.
- Submit documentation of:
 - 2-dose vaccine (Heplisav-B)
 - **OR** 3-dose vaccine (Engerix-B, Recombivax, Twinrix)
- Submit repeat Quantitative titer results.

*Note: Clinical sites may require an updated Titer.

Measles, Mumps and Rubella (MMR)

Provide documentation of 2 MMR vaccines OR a positive antibody Titer showing immunity.

If negative Titer is provided, students must:

- Obtain booster vaccination.
- Repeat Quantitative Titer.
- Submit documentation of booster vaccination.
- Submit repeat Quantitative Titer results.

*Note: Note: a 3rd-dose of MMR vaccine may be advised during regional outbreaks of measles or mumps if original MMR vaccination was received in childhood.

TDAP Vaccination Series

Provide documentation of a current TDAP (tetanus/diphtheria/pertussis) vaccine.

TDAP is considered current if administered within 10 years.

- Required to repeat when expires.
- TD or DTAP will not be accepted.

Tuberculosis Screening

Provide documentation of QuantiFERON TB GOLD test within the last 12 months.

- Note: Annually required each year of enrollment.

If results are positive, please provide a clear chest x-ray. Chest x-rays are valid for 5 years.

- Note: TB Skin Tests & T-spot tests are not accepted.
- Some clinical sites may require additional TB screening methodologies; this will be dealt with on case-by-case basis.

	Date of Last Chest X-ray				

Varicella (Chicken Pox)

A Quantitative Titer is required. If negative titer provided students must:

- Obtain booster.
- Repeat quantitative titer.
- Submit documentation of booster vaccination.
- Submit repeat Quantitative titer results.

*Note: Clinical sites may require an updated Titer.
